ABOUT ME

I am currently pursuing a degree in Computer Science and Technology at SNS College of Engineering. I am highly proficient in using AI tools to solve problems and build practical projects. I have hands-on experience in Python, web development, and AI-based applications, with a strong focus on developing real-world solutions. I enjoy learning emerging AI technologies and working collaboratively in team environments. I am a quick learner with strong analytical skills and a positive approach to challenges, seeking an entry-level AI-focused role.
